Subject: Release of Dunlop Tires

Dear Dealer,

After extensive road tests we are releasing and approving the following Dunlop tires:

Front: 3.25 H 19 F 6 BP

Rear: 4.00 H 18 K 87 Mark II MN

Test results of this tire in dry and wet conditions were excellent.

In addition to Conti and Metzeler, Dunlop tires will be delivered as standard equipment on new motorcycles in the near future.

Since the front Dunlop tire is slightly wider, check clearance after installation of the front wheel assembly.

WARNING! A brand of tires should never be intermixed with other brands.

The tire pressure stays the same as recommended in the Rider's Manual or S.I. 36 003 77(1036R).

Yours truly,

BMW MOTORRAD GMBH
Munich
