

Service-Information

Group 36 Wheels and Tires	October 1980	Bulletin No. 36 010 80(2028)
------------------------------	-----------------	---------------------------------

- For U.S.A. and Canada Only -

Subject: Approved Michelin Tires

In addition to the previously approved tires of the Michelin Tire Co. (See S.I. No. 36 007 78(079R) the following tires have been approved:

Front: 3.25 H 19 S41
Rear: 4.00 H 18 M45

- See enclosed picture -

Caution: Mounting tips listed below are advisable when mounting tires onto BMW motorcycles.

1. Do not use different tires of different manufacturers on our machines.
2. Tube and tires must be identical to each other, in terms of size and material.
3. Both tube and tire to be replaced.
4. During the mounting process, a tire mounting spray, such as Michelin's Mounting Emulsion must be used, especially on the BMW cast wheels.
5. Due to the width of the front tire (S41), especially if used with the 2.15 B 19 wheel, the clearance is critical. Thus the /6 - /7 models must have the front fork brace - P/N 4661234907 installed.
6. Check with S.I. 36 001 77(015R) for proper tire pressures in regard to these tires.

Yours truly,
