Ref: Approved Rear Wheel Tyre

Dear Sirs,

The rear Tyre 4.00 S 18 Conti K 111 has been replaced by the Tyre

4.00 S 18 Conti K 111 KS.

The new Conti rear tyre has improved directional stability and adherence friction as of Series No. 312 (31st week, 1972).

In addition to the proven C6 by Metzeler, we have also released a new rear tyre, designation

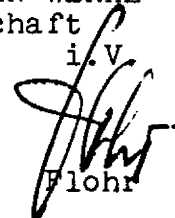

4.00 S 18 Y 148 Bloc C 6

which gives increased stability as a result of the reinforced side wall. The service life of this tyre is 30% longer than that of a normal Metzeler Tyre. The weight of the Y 148 is approximately 14 lbs, 1 lb 4 oz. more than a normal C6 tyre.

Further tyres are under test; upon release you will be informed immediately.

Yours faithfully,  
BAYERISCHE MOTOREN WERKE  
Aktiengesellschaft  
ppa. i.V.
