Subj.: Shock absorbers for telescopic fork

Dear Sirs,

Please observe that the oil quantity of 280 cc for the telescopic fork - stated on the cover back, inside of the owner's manual for the new motorcycle models - only refers to one fork strut. The total quantity to be filled into the telescopic fork then is: 560 cc.

The shock absorber oil Shell 4001, prescribed to lubricate the telescopic fork, can be obtained under the ordering nr. 31 32 9 196 902 in casks of 2.5 liters, the same way as if ordering spare parts.

Very truly yours,
