Re: Metzeler ME 11 and ME 77 Tires.

After comprehensive tests, we have now approved the following tires for all BMW motorcycles; R50/5 to R100RT, either for replacement on existing machines or as standard equipment on new models.

3.25 S or H 19 Perfect ME 11 (tubed type) with E 19 tube

4.00 S or H 18 Perfect ME 77 (tubed type) with E 18 tube

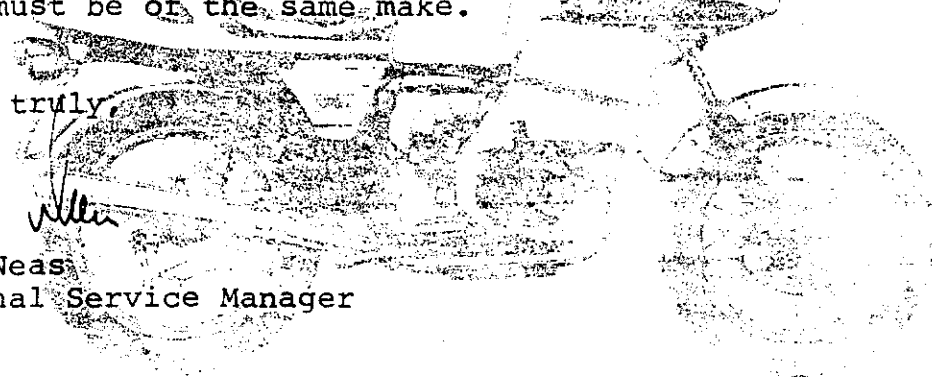

These tires are marked with an arrow and should be mounted according to the arrow in the direction of rotation.

We feel it is essential that whenever a tire is changed, the inner tube must be changed at the same time and the tube and tire must be of the same make.

Yours truly,

Herb Neas
National Service Manager
