## Supplement 1

Ref: Rear shock absorbers for motocross

Dear Sirs,

In addition to the earlier authorization of a 'harder' shock absorber it is now also possible to order a harder

spring leg, complete, left            Order no. 33 53 1 231 895  
spring leg, complete, right           Order no. 33 53 1 231 894 or  
harder carrying spring  
(wire gauge 0.31")                    Order no. 33 53 1 231 893

via the normal order channels.

Information on the application of these items has already been provided.

Whereas it is possible, according to application, to combine the normal springs with rear shock absorbers it is not advisable to combine hard springs with normal shock absorbers.

Yours truly
