-------------------------------	---------------------	---	---

Ref.: New Rear Axle Transmission

Dear Sirs,

in order to improve the acceleration values of the model R 75/5, especially in the higher gears, we started ex

frame No. 2 973 204

in the series with a rear axle transmission of 10/32, i = 3,20 (until 11/32, i = 2,91). At the same time the max. admissible speed is increased to 6.500 rpm.

The new rear axle drive can be installed later on against invoicing; take care that the engine is fitted with a tachometer with a way rpm of 0,715 (until now 0,665).

The actual used set of spur bevels 11/32 can be ordered further on as a spare part.

The ordering Nos. for old and new parts are:

<u>name</u>	<u>actual ord.No.</u> <u>(11/32)</u>	<u>new ord.No.</u> <u>(10/32)</u>
rear wheel drive compl.	33 10 1 230 543*	33 10 1 230 547
spur bevel with pinion	33 12 1 230 806	33 12 1 231 160
instruments set	62 11 1 350 587	62 11 1 353 676

Yours very truly,
BAYERISCHE MOTOREN WERKE
Aktiengesellschaft
ppa. i.V.

* can not be supplied as a spare part
