Re: R 80 G/S Spark Arrester

It has come to our attention that many local laws require a spark arrester on vehicles used for "off-road" purposes.

Accordingly, BMW engineers have approved a spark arrester for the R 80 G/S for "off-road" use, only when local laws require one.

The spark arrester will be available as an accessory, to be installed by customer, and is available through normal parts channels, under the part number:

18 12 1 242 644

This arrester has been approved by the Department of the Interior - United States Forest Service.
